tunionatlyndhurst@gmail.com for client

123456789

theunionatlyndhurst0@gmail.com for freelancer

123456789

admin@hirenwork.com / Admin@123

1. Client.

The screenshot shows the 'Description' form in the Hirenwork dashboard. The form is divided into three steps: 1. Description, 2. Location and Date, and 3. Budget. The 'Description' step is active. It contains a 'Title' field with a placeholder 'Enter Here', a 'Skill Required' dropdown menu with a placeholder 'Choose option', and a 'Description' text area with a placeholder 'Enter Description'. A yellow highlight is placed over the 'Skill Required' dropdown menu.

Check the yellow marked area need to put here a field called “ Keywords”

Functions : Once client put any skill like developer or designer then this keywords area will show some of related with skill like “ Php developer “ Wordpress developer” “ HTML designer “ “ Photoshop designer”

Algorithm : With the help of keywords skill hirenwork will hit a push notification towards specific skilled freelancer . Like : If a freelancer put there profile title “ Wordpress expert with 8 yrs experience “ then this freelancer can get a notification that client placed a project related with Wp expert.

2. Freelancer

8.

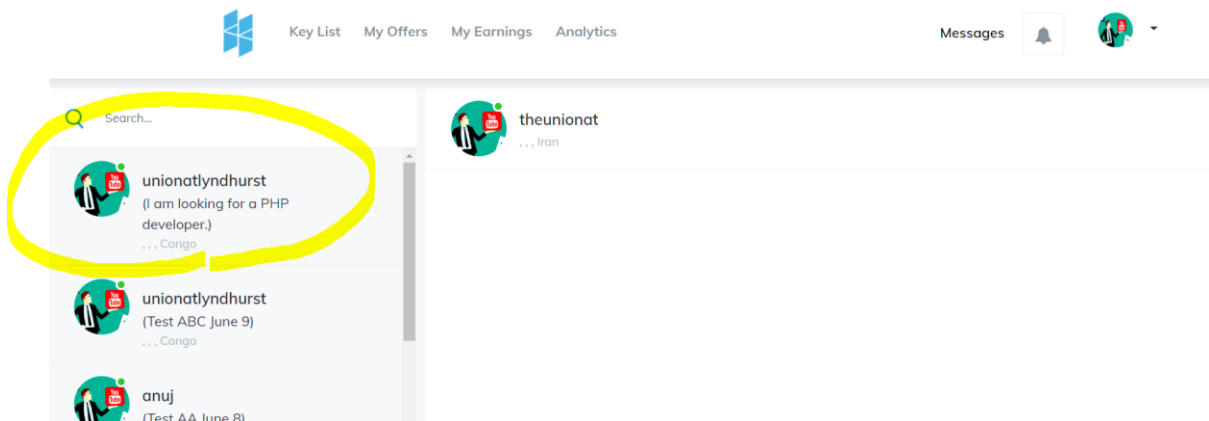

Client

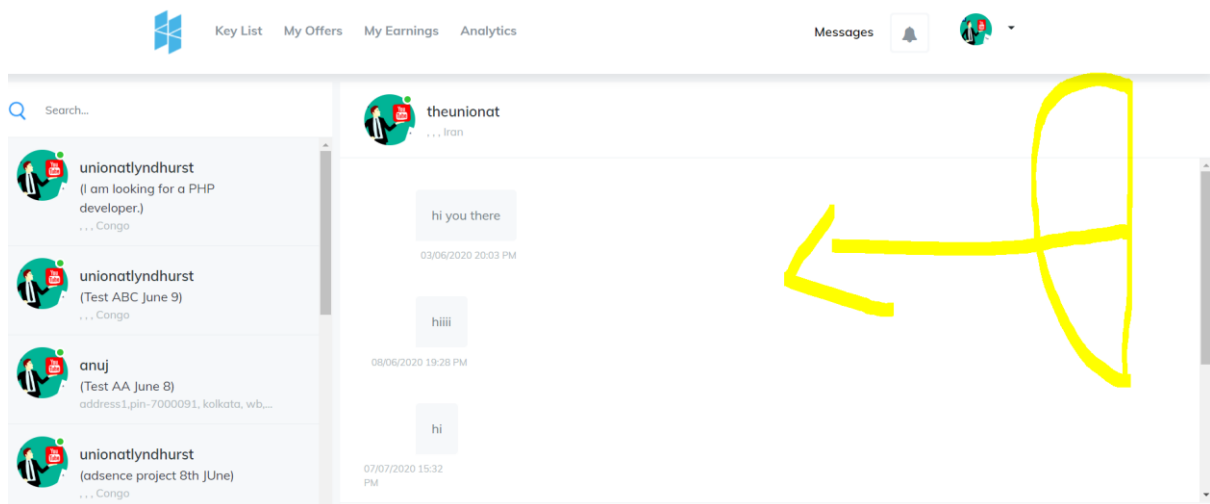

It looks do clumsy can we make it clean with all details.

9. Freelance + Client

Message notification having problem . Once freelancer got notification then he open this window, after that should mark notification symbol in last chat here I marked yellow round ,See the image .

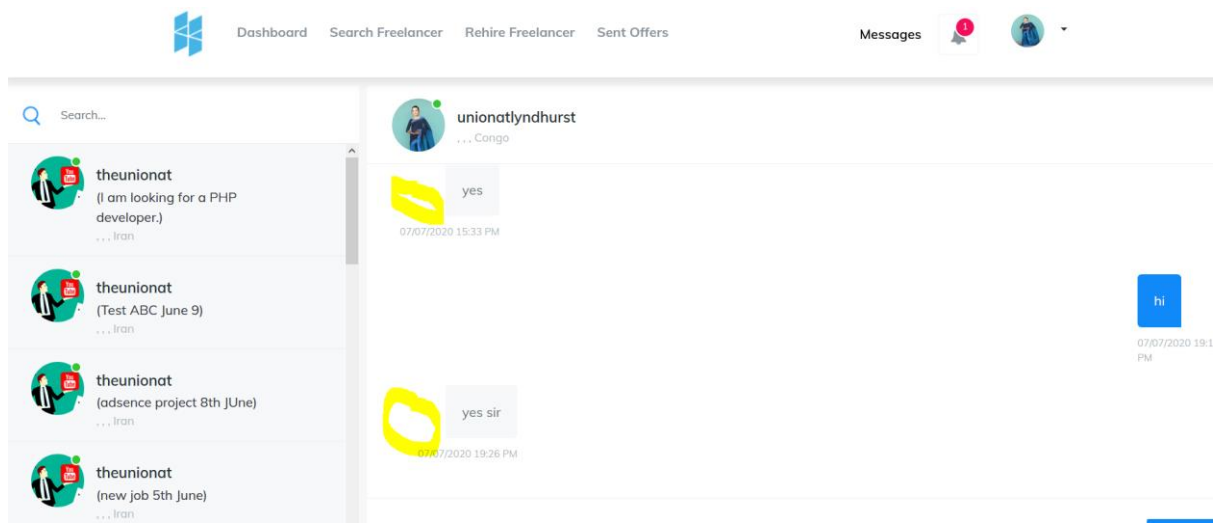

In this image , once freelancer open the last chat section then the chat box will automatically show the last chat this logically happened, but here see the point of marked area, this is beginning of chat , Freelancer drag the right bar down to see the present message .

Same thing happening with client message part , so need to fix both.

10. Freelance + Client

In this chat box there r missing of images from message sender , need to fix for both freelancer & client. Message sender image should be hyperlinked with specific profile.

11. Client

<http://www.drivedigitally.com/hwhavenew/make-an-offer>

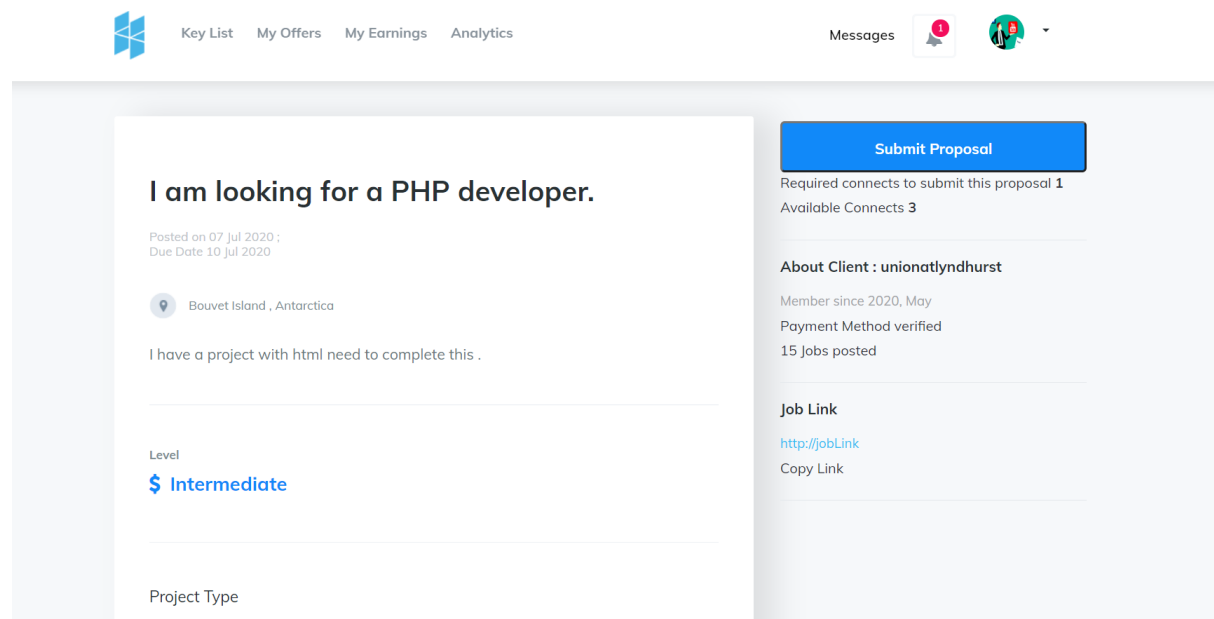

Once client send make offer to any freelancer then client should get a thank you message that he offered successfully .

12. Freelancer

<http://www.drivedigitally.com/hwhavenew/job-details/ADMUK449NZ>

After got offer from client, freelancer should get a notification for the same , then once he open the job details page for accept there should be 2 button .

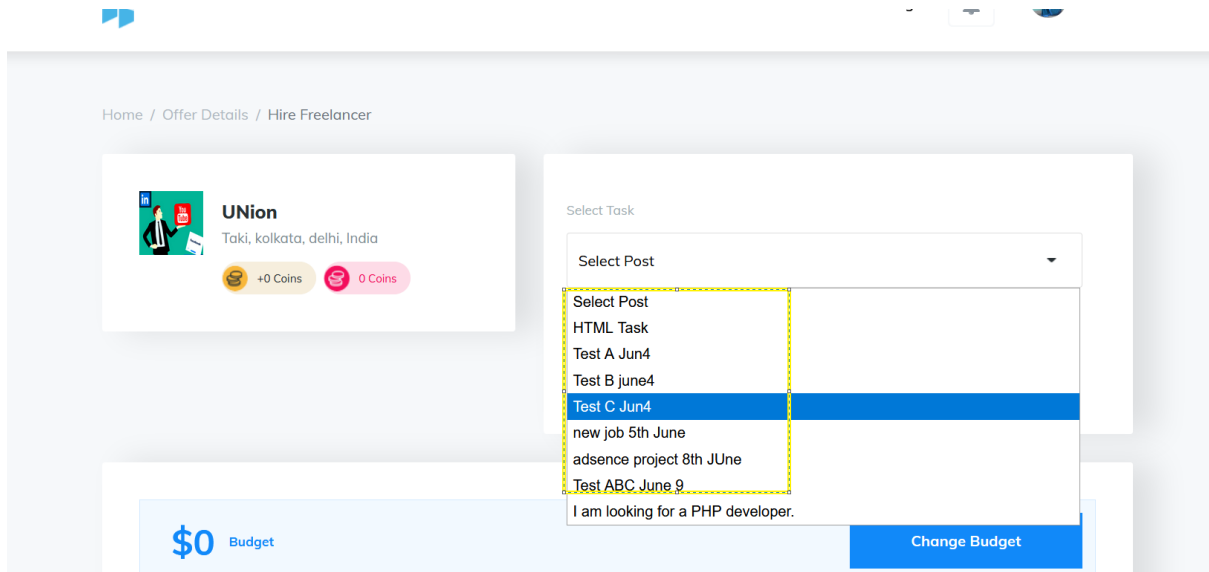

- a. Accept
- b. Reject

The screenshot shows a web interface for a job listing. At the top, there is a navigation bar with links: Key List, My Offers, My Earnings, and Analytics. On the right, there are icons for Messages and a user profile. The main content area is divided into two columns. The left column contains the job title "I am looking for a PHP developer.", the posting date "Posted on 07 Jul 2020 ; Due Date 10 Jul 2020", the location "Bouvet Island , Antarctica", and a description "I have a project with html need to complete this .". Below this, the skill level is indicated as "Level \$ Intermediate". The right column features a blue "Submit Proposal" button, followed by the text "Required connects to submit this proposal 1" and "Available Connects 3". Below this is a section titled "About Client : unionatlyndhurst" with details: "Member since 2020, May", "Payment Method verified", and "15 Jobs posted". At the bottom of the right column, there is a "Job Link" section with a blue link "http://jobLink" and a "Copy Link" option.

13. Client

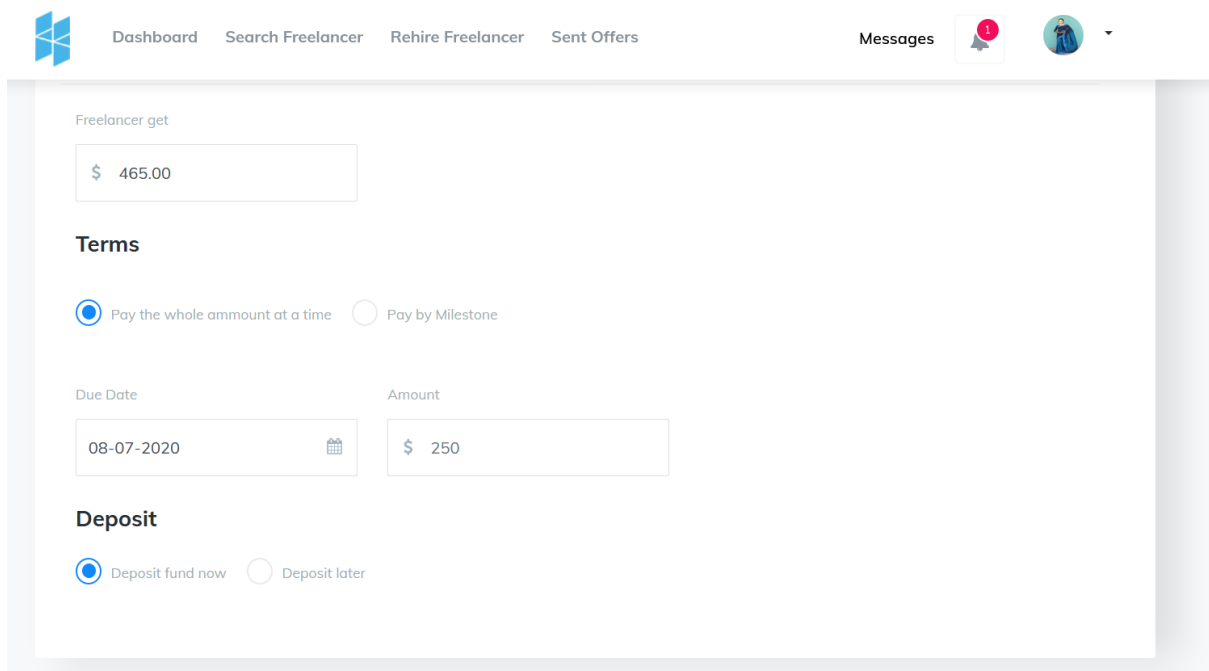

<http://www.drivedigitally.com/hwhavenew/hire-freelancer>

This is the section of hire process, from this select post section need to remove the projects title those have completed, Only active project title will show here .

14. Client

<http://www.drivedigitally.com/hwhavenew/hire-freelancer>

In this budget section , What payment gate should we use? Without payment gateway integration how we can fix the function & check for the same at the beginning stage .

15. Freelancer

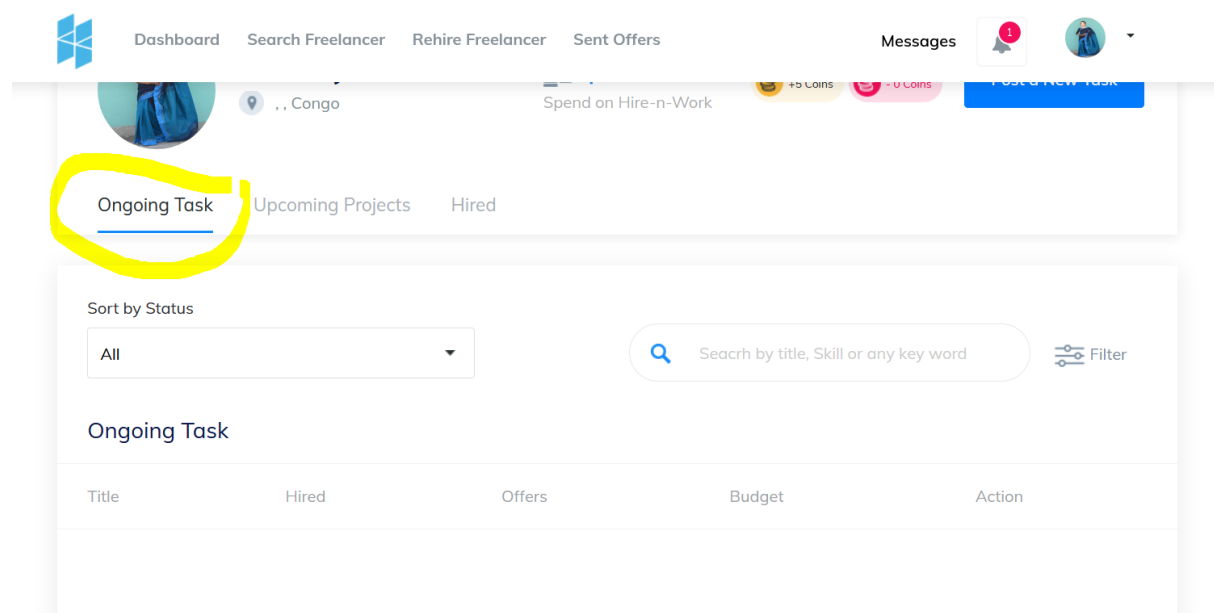

<http://www.drivedigitally.com/hwhavenew/job-details/ADMUK449NZ>

After got hired from client, freelancer should get a notification for the same , then once he open the job details page for accept there should be 3 button .

- a. Accept
 - b. Reject
 - c. Completed
-

16. Client

<http://www.drivedigitally.com/hwhavenew/dashboard>

Once client having active project with freelancer then the project should come under Ongoing tab.

17. Client

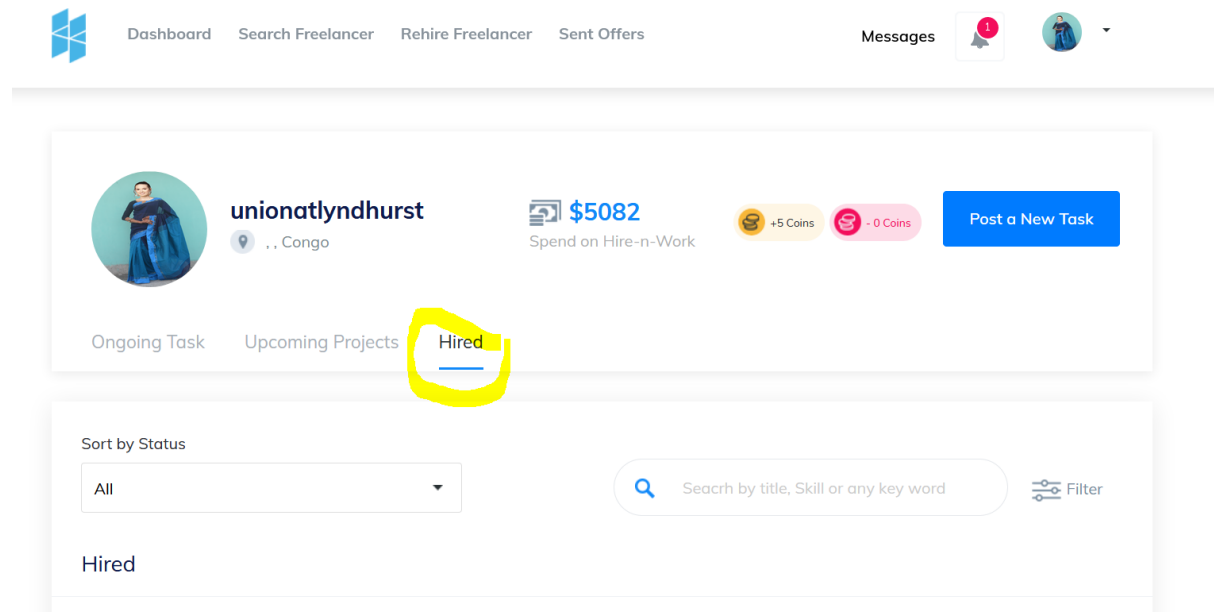

<http://www.drivedigitally.com/hwhavenew/dashboard>

Once client hired a freelancer then the project should come under Hire tab.

Also the freelancer placed under hire tab should hyperlink with the specific project title where this specific freelancer is working presently .

At that page there r 2 button

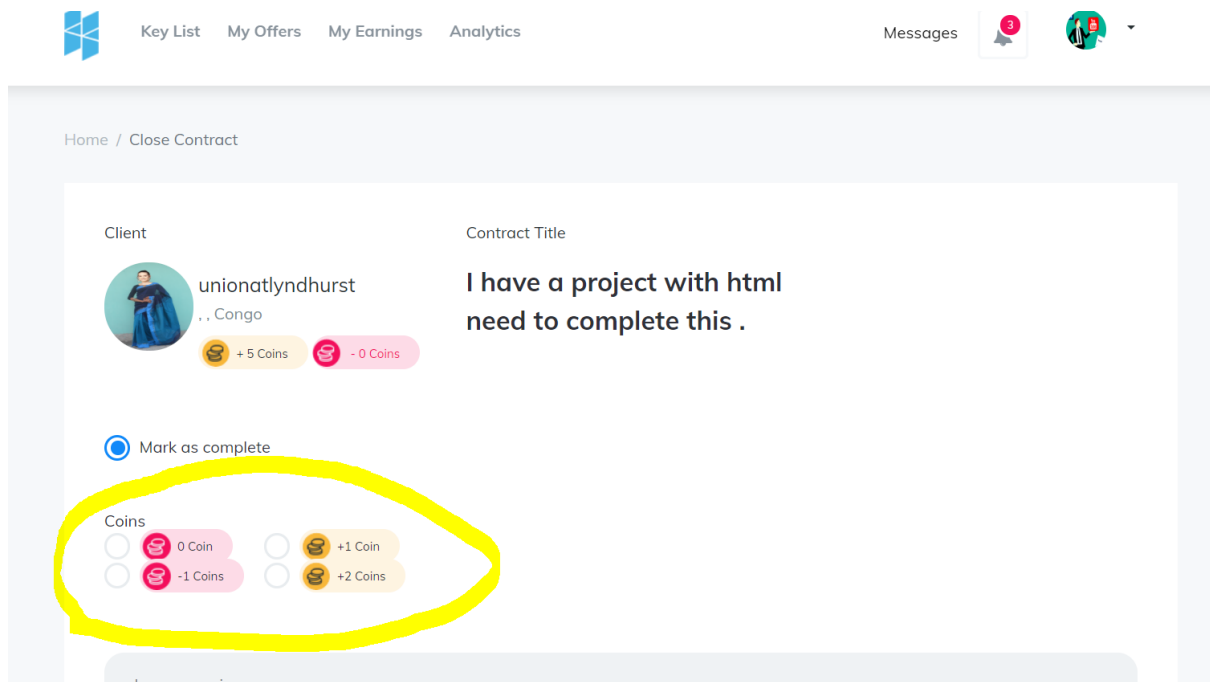

- a. Task Completed
- b. Cancel.

18. Client + Freelancer

After complete the project from both site like client & freelancer , freelancer can give coin & review to the client , Same as Client can give coin & review to freelancer. This coin & review will reflect in the client & freelancer profile under review section for reviews & Profile header for coin.

<http://www.drivedigitally.com/hwhavenew/freelancer-close-contract/TlIGM09ERUhZNg==/NjA=>

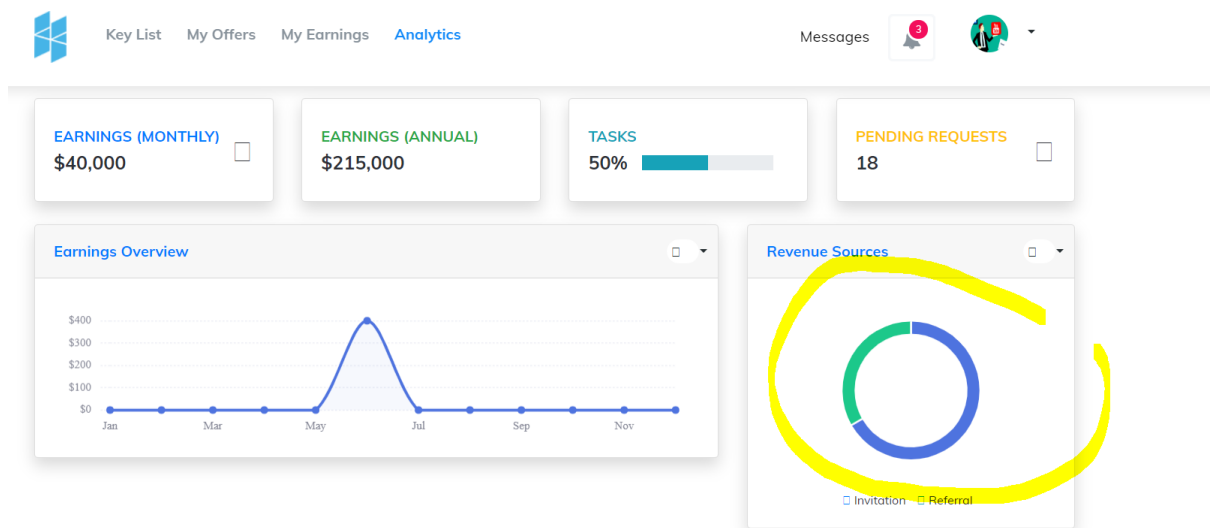

This functions have done from backend but not reflecting in the frontend.

19.

Freelancer

<http://www.drivedigitally.com/hwhavenew/analytics>

There r 3 types of revenue source

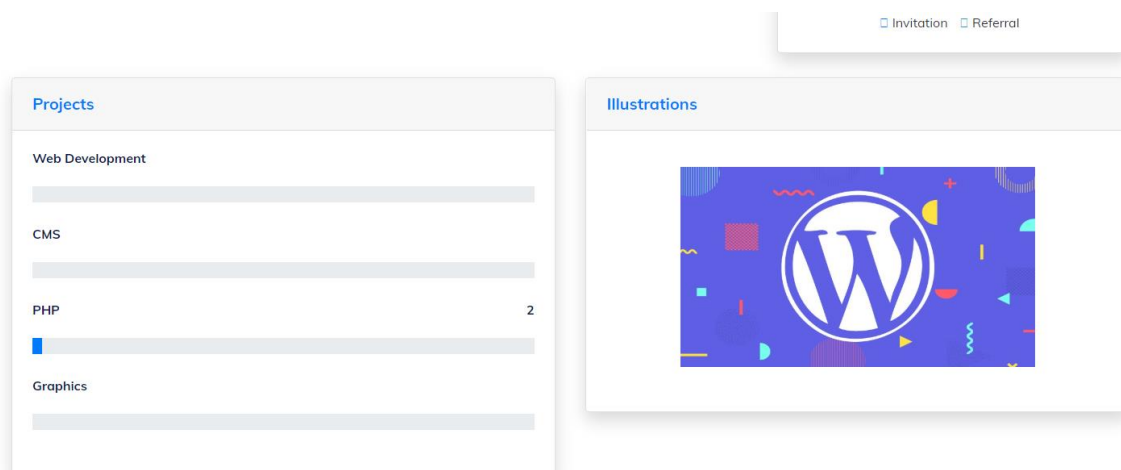

Here Invitation means the project comes from Make offer.

Key project means the project comes from through bid

Micro Key project means the project comes from skill list algorithm

20. Freelancer

<http://www.drivedigitally.com/hwhavenew/analytics>

In this section , there r the list of project from where the freelancer get earned .

Once the freelancer mouse over on let site project then right site will flash about project name , client name , budget , time of wok.

21. Freelancer + Client + Admin

<http://www.drivedigitally.com/hwhavenew/problem-ticket>

Once Freelancer + Client raised any problem ticket then it will effect at the admin section but it not show.

Admin login `admin@hirenwork.com / Admin@123`

22. Freelancer

When any freelancer send proposal then the Key (connect) will reduce .

Per project Key reduce 1.

Once any freelancer sing up then he go 5 key in free after complete this key have to purchase.

23. Freelancer

The screenshot displays a freelancer's profile interface. At the top, navigation links include 'Key List', 'My Offers', 'My Earnings', and 'Analytics'. On the right, there are 'Messages' and a user profile icon. The main profile section features a circular avatar, the name 'UNion', and location 'kolkata , delhi , India'. A yellow circle highlights the 'Spend on Hire-n-Work' value of '\$5082'. To the right, 'Available Connects' is shown as '5'. Below this, there are two buttons: '+0 Coins' and '-0 Coins'. A row of tabs includes 'New', 'Active', 'Late', 'Delivered', 'Completed', and 'Cancelled'. At the bottom, there is a 'Sort by Status' dropdown menu set to 'All' and a search bar with the placeholder text 'Search by title or any key word'.

Freelancer can earned not spend .

24. Freelancer

Key List My Offers My Earnings Analytics Messages

UNion
kolkata, delhi, India
\$5082 Spend on Hire-n-Work
5 Available Connects

+0 Coins -0 Coins

New Active Late Delivered Completed Cancelled

Sort by Status
All

Search by title or any key word

Buyer	Job	Due Date	Budget	Note	Status
tuni Rond, kolkata, west bengal	seo developer	07/07/2020	\$100.00		Details

1. Freelancer got offer goes to > NEW,
2. Freelancer got hired goes to > ACTIVE
3. Freelancer crossed late date the project shows LATE
4. Client accepted work of freelancer those project goes to DELIVERED
5. **FREELANCER COMPLETED WORK GOES TO COMPLETED**
6. Which project r cancel, those goes to CANCELLED

25. Client

<http://www.drivedigitally.com/hwhavenew/task-details/ADMUK449NZ>

In this page should have a area for total count of proposal number.

Also a button from where client can see all freelancer individual proposal.

26. Client

Should have a analytics regards how much spend, how many project have done with which freelancer.

27. Client + Freelancer

Need to set up email verification method for both.

28. Client

All skill should be dynamic so if client enter any unknown skill which is not present in database .so the unknow skill should be adding while post job.

29. Client

<http://www.drivedigitally.com/hwhavenew/search-freelancer>

Search should be based on skill only.

30. Freelancer

Profile title must be having skill so this can help to get project & search freelancer by client.

Please, follow this steps:

1. Client post the job
2. Freelancer bid on this job
3. Client see the proposal
4. Client message to the freelancer
5. Client make offer to the freelancer
6. Freelancer reply on the message
7. Freelancer accept or reject on offer
8. Client hire freelancer
9. Freelancer accept or reject the hire request
10. Freelancer complete the task & send review & coins
11. Client approve the complete task then send review & coin.
12. Once client not agree then freelancer issue disputes.

New task :

1. Add micro key in the section of freelancer.
2. Add nlanucer room while sing up.

Note : I want the design like HTML which I provided. While development if developer break any design so it should be developer responsibilities to fix the design as I am providing HTML. There r no such changes need in HTML . The given HTML is final design for this project , So no sacrifices for design issues.
