Login as a 2 way:

One way:

Freelancer (two different login)

> 1. Willing to do bid manually called “ **key**”

> 2. Not willing to do bid manually so they can post a “micro-job” with the help of graphic design & describe their skill & budget as well. Called “**micro-key**”

In this freelancer dashboard then can login 2 way like “ key” or “micro-key” but the 2 dashboard will be different view.

For “key” login:

1. Freelancer can browse category for post job.
2. Freelancer can select category & select skill then they can post bid manually just follow the development steps like freelancer.com or upwork.com.

For “micro-key” login:

1. Freelancer can create micro job like the above view. & share all skill details along with budget.
2. Freelancer can browse category & post there specific micro key under the category.
3. Once a freelancer have done with creating & posting micro-key under a specific category then they can see all micro key under his own dashboard.

All freelancers can see clients past hire, area, how many jobs open, spends, all things.

Client’s membership plan etc.

In freelancer dashboard will be present below things:

1. Skill
2. Experience : Need to provide company offer letter, release letter,
3. School:
4. Past project:
5. How much earned:
6. How much coins get: (I dont want to use rating system, instate of this I will use “coin” which means one successfully job done freelancer got one coin. If the project cancel 2 coins will be reduced.)
7. Freelancer grade: There will 5 grade for each freelancer like the below:

A+ (Top rated) , A (intermediate), B (Rising start), C (New Freelancer), C- (Bad Resource {At a time 5 projects cancelled by client})

8. Freelance have to submit country identity & phone verification, email verification, system verification (laptop, phone), security question.

9. If freelancer feel that client close the contract after test task or exam then he can raise a “**problem ticket**” for that the nlauncer support team can fix the problem through call or chat with both buddy (freelancer & client)

Second way:

Client:

1. Once client willing to post job the job can be visible at key & micro key section both simultaneously.
2. Client having different dashboard in the same account as well or he can create only client account too.
3. Client can be walked through freelancer past work, job success score, coins (I dont want to use rating system, instate of this I will use “coin” which means one successfully job done freelancer got one coin. If the project cancel 2 coins will be reduced.) entire freelancer view before hiring.
4. Client can asked a freelancer for sample test task or sit for the exam for specific project.
5. Client can take interview for project.

6. After a successfully test task or exam or interview client can hire a freelancer.
7. If freelancer feel that client close the contract after test task or exam then he can raise a “**problem ticket**” for that the nlauncer support team can fix the problem through call or chat with both buddy (freelancer & client).
8. Client never close the contract after test task or exam but client should walk freelancer skill before hiring.
9. Message is the only mode of conversion for both. If they want to call then they can opt skype,
10. Millestone will be works for all kind project.
11. Once client hire someone for his project then nlaucer will deduct commission from client like

Under 100 budget> commission > 3%,

100 to 500 >5%

500 to 1000>10%

1000 to 3000>15%

3000 above > 20%

Client & freelancer dashboard will simple different view. If one account having client & freelancer access then if I see client account then 3 rd party cannot see freelancer work history, similarly if I see freelancer view then 3rd party cannot see client history.

Nlaucer commission system:

Freelancer & client can create an account for free.

Client can opt nlaucer membership.

After create account freelancer get 5 keys to bid projects. After that he have to buy keys for bid.

Once freelancer work on a project under 100 usd then nlaucer will not deduct any commission.

Once freelancer work on a project above 100 to 500 usd commission will be 5%.

Once freelancer work on a project above 500 to 1000 usd commission will be 10%

Once freelancer work on a project above 1000 to 3000 usd commission will be 15 %

Above 3000 usd commission will be 20%.

PAyment gateway will be all approve debit, credit, paypal, payoneer.

Payment can take direct bank transfer.

SMS gateway also use for ph verification.

Nlaucer Room:

1. This is another section of nlaucer where outsider freelancer (not necessary to have an account of key mode or micro key mode) can join & create account also invite to their client do the job as well.
2. If they already having nlaucer freelancer or client account they can get extra advantage.

3. Here is completely free sign up for both buddy.
4. Commission will take only based on the project budget.
5. Here having 2 different dashboard like freelancer & client they can message , they can take payment direct bank transfer,
